TO: Members of the House Committee on Health Policy

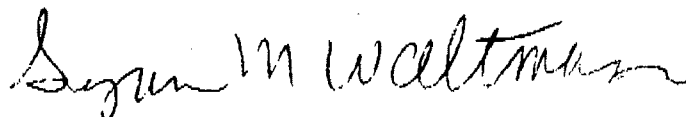

RE: Testimony offered for House Bills No. 5171 and No. 5322

On behalf of the members of Michigan Opposing Mandatory Vaccines (M.O.M.), I am testifying in support of House Bills 5171 and 5322, which would provide information about the human papillomavirus (HPV) and the HPV vaccine to schools, parents, and vaccine recipients.

M.O.M. appreciates the time and effort taken to consider all aspects of HPV and HPV vaccine. So many have shown a great interest in the health and well being of women affected by this potentially fatal disease.

We know that when presented with all the facts, women and parents, working with their health care providers, can make educated decisions that best suit their own personal situations.

Respectfully,

Suzanne M. Waltman
President, Michigan Opposing Mandatory Vaccines
